Applicant

TOKYO ELECTRON LIMITED et al

1. Transmittal of the translation to the applicant.

The International Bureau transmits herewith a copy of the English translation made by the International Bureau of the international preliminary examination report established by the International Preliminary Examining Authority.

2. Transmittal of the copy of the translation to the elected Offices.

The International Bureau notifies the applicant that copies of that translation have been transmitted to the following elected Offices requiring such translation:

EP, KR

The following elected Offices, having waived the requirement for such a transmittal at this time, will receive copies of that translation from the International Bureau only upon their request:

US

3. Reminder regarding translation into (one of) the official language(s) of the elected Office(s).

The applicant is reminded that, where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report.

It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned (Rule 74.1). See Volume II of the PCT Applicant's Guide for further details.

Claims 1-8

The subject matters of claims 1-8 do not appear to involve an inventive step in view of documents 1-3 cited in the ISR. Documents 1-3 respectively describe a method for oxidizing the surface of a work by mainly using a hydroxyl group active species and an oxygen active species in vacuum atmosphere. Therefore, a person skilled in the art could have easily conceived of employing a work with a nitride film exposed on the surface described in document 2 or 3 as the work described in document 1.
